

# horned frog care sheet

## habitat

10-20 gallon tank with screen lid. Provide large pieces of driftwood, artificial non-toxic plants, bark and branches. Mulch type bedding. Provide fresh clean chlorine-free water in a shallow bowl daily.

## lighting

Provide a basking lamp.

## temperature

Temperature should range from 68° - 80°F. Use a heat source when needed. Maintain humidity by misting daily.

## diet

Live gut-loaded crickets and worms. Goldfish & frozen, thawed rodents can also be provided. Sprinkle food with calcium daily and with a mineral supplement once or twice a week.
